

Grace Haven Ministries Women's Sober Living House July Newsletter

We continued to volunteer at Foundation dinner serving meals and serving food at Community Walk for Christ.

WOW! we help distribute over \$4,000.00 worth of toys to kids affected by Covid 19 for Good 360. It was a lot of fun but I could not believe how many toys there were, they over took our house. The children and their families face made it a great experience and so much fun!

We are moving forward with our new house and the ability to help more women. Right now, we are working on finding property to build a new 12-bedroom house. Our ministry is supported by churches and our community. We need your help to build the house and to continue to operated our faith based sober living house. Our house is Christ Center, loving the ladies here as Jesus would. The goal to teach the Word, live the word and teach how to live in the word themselves. It's complete healing not just stop using drugs but living in Freedom of drugs. Healing of the body, mind and soul. Special thanks to the ladies who have come alongside our ladies loved them and mentored a Godly walk.

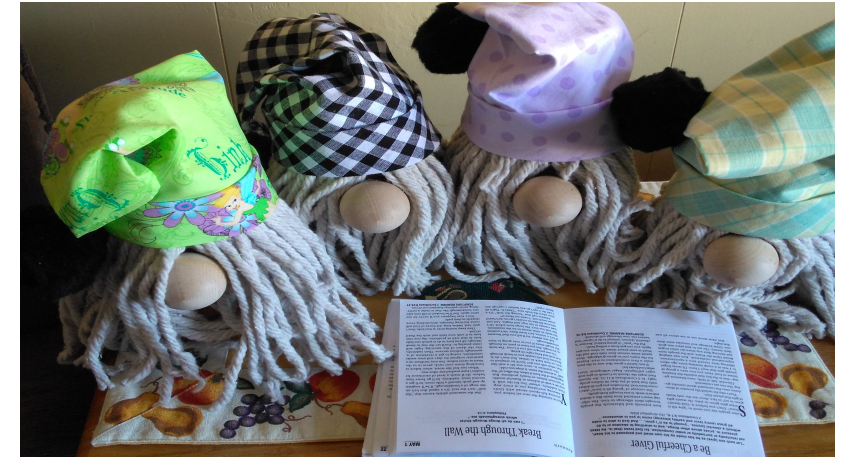

We are writing grants to help fund the new house but will need everyone's help to build a mortgage free house. We already have a commitment from a builder and architect. Currently looking for property outside the city limits. Please be prayerful about supporting us financially and with your talents.

We have been so blessed by financial supporter's and volunteers helping with project and giving of their time and talents.

Streaming church services and small group discussions, zoom counseling, probation visits over the phone and doctor appointments.

Due to Covid and losing all our recovery service we have started our own NA meeting and it has been a great success. We have several women joining us from the Pearl House.

Jinnara was baptized on 5-31-20. Jinnara, Hope and Faith are all working and saving their money in preparation to move out this fall, purchase a car and driver license. The girls have come a long way and are happy beautiful women and I'm very proud to be part of their lives.
